With 7+ years of experience in web development, social media marketing, and content creation, I have made a significant impact at startups and organizations like The Web Blinders, Ethnus, Voice-IT Club, and Thaagam Foundation. In just 2 months at The Web Blinders, I successfully completed multiple web development projects. In just 3 months at Ethnus, I mastered the MERN stack. As a social care worker and volunteer for 5+ years, I have helped countless individuals through charitable efforts. In my self-employed role, I managed multiple meme pages and influencer profiles, and created content for Instagram pages. I have consistently delivered results and look forward to continuing to make a positive impact in the future.
