Projects

Blogging Platform

Developed a comprehensive blogging platform utilizing the MERN (MongoDB, Express.js, React.js, Node.js) stack. Integrated OTP verification for enhanced security and user authentication. Implemented a dynamic frontend using React and a robust backend with Node.js and Express.js, seamlessly integrated with MongoDB for efficient data management.

Sociopedia

Created a dynamic social media platform leveraging the MERN (MongoDB, Express.js, React.js, Node.js) stack. Designed an intuitive user interface with React for seamless navigation and interaction. Backend powered by Node.js and Express.js, integrated with MongoDB for scalable data storage and retrieval. Implemented core social media functionalities for user engagement and interaction.

Memory Game

Developed an interactive memory game using HTML, CSS, and JavaScript. Designed an engaging user interface with CSS to enhance visual appeal. Implemented game logic and functionality using JavaScript, providing users with an enjoyable gaming experience.

Editor.io

Created a web development compiler platform, Editor.io, allowing users to write and compile HTML, CSS, and JavaScript code in real-time. Developed an intuitive user interface using HTML and CSS, providing a seamless coding experience. Implemented interactive features with JavaScript to enable users to see output changes dynamically while coding.

Certifications

AWS Academy Graduate -AWS Academy Cloud Foundations at Amazon WebServices

Techniques for Big Data Analytics at Skillsoft

Java Full Stack Development at iamneo- Formerly Examly

My Portfolio

My portfolio website serves as an introduction to my skills, experiences, and projects. It provides visitors with insights into my background, showcasing my expertise and capabilities. Through this platform, Visitors can explore my resume to gain a deeper understanding of my professional journey and qualifications. Additionally, the website includes contact details, enabling easy communication for potential collaborations or inquiries. Designed with simplicity and clarity in mind, my portfolio website effectively represents who I am and what I have to offer.
